PROFESSIONAL SUMMARY

Technology-oriented business systems professional with experience coordinating customer implementations, technical workflows, documentation, and cross-functional operations. Current role includes managing customer requirements, performing technical assessments, coordinating installations, documenting project details, and supporting successful implementation outcomes. Strong foundation in TypeScript, Python, SQL, Microsoft 365, CRM systems, and software engineering fundamentals. Bilingual in English and Spanish, with the ability to translate business needs into organized processes, clear documentation, and reliable execution.

PROFESSIONAL EXPERIENCE

TG WATER SYSTEMS

Water Treatment Consultant

2025 - Present

- ❖ Managed customer implementation projects from initial consultation through installation, coordinating schedules, technical recommendations, financing, installer communication, and post-installation follow-up.
- ❖ Performed on-site water analysis to identify customer requirements, diagnose water quality concerns, and recommend appropriate treatment solutions based on technical findings.
- ❖ Coordinated communication between customers, installers, internal teams, and financing providers to ensure projects were completed accurately and on schedule.
- ❖ Documented project details, customer requirements, technical findings, installation status, financing progress, and implementation outcomes while maintaining organized records.
- ❖ Resolved installation challenges, scheduling conflicts, customer concerns, and process issues to keep projects moving toward successful completion.
- ❖ Supported customers after installation through follow-up communication, issue clarification, and solution-oriented problem solving.

Lowe's

Flooring Sales Specialist

2023 – 2025

- ❖ Coordinated residential flooring projects from quotation through installation, ensuring accurate product selection, order processing, scheduling, and project completion.
- ❖ Worked closely with installers, vendors, and internal departments to coordinate schedules, resolve issues, and maintain project timelines.
- ❖ Managed multiple customer projects simultaneously while maintaining documentation accuracy, customer communication, and high-quality service.
- ❖ Assisted customers in evaluating project requirements, selecting appropriate products, and ensuring successful installation outcomes.
- ❖ Used internal systems to process orders, track project details, support customer follow-up, and maintain operational accuracy.

Walmart

Associate

2020 – 2023

- ❖ Supported daily retail operations in a high-volume environment while maintaining inventory accuracy, merchandising standards, and customer service excellence.
- ❖ Maintained operational accuracy, service standards, and workflow consistency in a high-volume environment.
